

**Application No.: 09/973,038**

**Amendments to the Specification:**

Please replace the title with the following new title:

SPEECH OR TEXT RECOGNITION UPDATABLE SYSTEM APPLIED TO  
VEHICLE

The term "voice recognition" is used throughout the instant specification. Therefore a Substitute Specification is attached to this response. Throughout the Substitute Specification, "voice recognition" has been changed to --speech recognition-- and several other informalities have been corrected.
